

In house show area

With the cancellation of the CV show this year, we have created an area within the factory where we display around ten assorted tailifts. These will include [cantilever and slider lifts](#) from our sister company Zepro, column lifts designed for [tippers](#) (Dump Over and Dump Thru), [wheelie bin lifts](#), our 'standard' [500kg \(Slimjim\)](#), [1000kg \(Trimloader\)](#) and [1500kg \(Superloader\)](#) column lifts and our [1000kg and 1500kg tuckunder lifts](#).

If you would like a demonstration of our products and a tour of our factory, we would be very willing to assist you. To arrange a visit, please contact with Ian Forman or Paul Kelly on 01993 708811.
